

Small Plankton Net Ø25 cm

The upper cylindrical net is made of strong Beaver Nylon with a diameter of Ø25 cm and a length of 15 cm. The conical net bag is made of Monodur Nytal (Nylon) and it is 40 cm deep. The bag is available in all mesh sizes.

The plankton sample can be gathered by dismounting a chromium plated, brass sample cylinder from the PVC ring located at the bottom of the net. Content 35 ml. The sample can be removed through a valve at the bottom of the sample cylinder.

Optional:

Sample cylinder made of PVC, 5 windows covered by stainless steel net, mesh size according to the plankton net, minimum size 20 µ. Content 80 ml. Ordering no. 23.004

Plankton nets are available in all types and sizes. Please ask for further information.

Description		Ordering No.
Plankton net (total weight 0,6 kg) 20-200 micron (includes sample cylinder (23.001) with valve, O.D. 32 mm). Please specify mesh size by ordering.	O.D. 25 x 40 cm	23.000
Plankton net (total weight 0,6 kg) 5-15 micron. Please specify mesh size by ordering.	O.D. 25 x 40 cm	23.002
Accessories/Spare parts		
Protection carrying bag for small plankton net made of beaver nylon.		23.003
Sample cylinder with valve made of brass, chromium-plated, O.D./I.D. Ø32/25 mm. Weight 350 g. Content of bucket: 35 cm ³ .		23.001
Sample cylinder made of PVC, 5 windows covered by net, AISI 316 stainless steel, mesh size according to the main net, minimum size 20 µ. Valve made of brass, chromium-plated. Content of bucket: 80 cm ³ .		23.004
